MORIEN RESOURCES CORP.

Notes to Condensed Interim Consolidated Financial Statements

(Canadian dollars)

(Unaudited)

For the three and nine months ended September 30, 2014 and 2013

1. Nature of operations

Morien Resources Corporation (“Morien” or the “Corporation”), a corporation domiciled in Canada, was formed when Advanced Primary Minerals Corporation amalgamated with Erdene Resources Inc. on November 9, 2012. The address of the Corporation’s registered office is 99 Wyse Road, Suite 1480, Dartmouth, Nova Scotia, B3A 4S5. The condensed interim consolidated financial statements of the Corporation as at September 30, 2014 and December 31, 2013 comprise the Corporation and its subsidiaries 6531954 Canada Limited (“6531954”) and Advanced Primary Minerals USA Corp (“APMUSA”). The principal business of the corporation is the exploration and development of coal interests in Nova Scotia, Canada.

2. Going concern

These consolidated financial statements have been prepared on a going concern basis, which assumes the Corporation will continue in operation for the foreseeable future and be able to realize its assets and discharge its liabilities and commitments in the normal course of business. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but is not limited to, twelve months from the end of the reporting period. Management is aware, in making its assessment, of material uncertainties related to events or conditions that cast significant doubt upon the entity’s ability to continue as a going concern, as described in the following paragraphs.

The Corporation has interests in projects in the exploration and evaluation stage and is subject to the risks and challenges similar to other companies in a comparable stage of exploration. These risks include, but are not limited to, dependence on key individuals, successful exploration results and the ability to secure adequate financing to meet the minimum capital required to successfully advance the projects and continue as a going concern.

The Corporation experienced significant losses and negative cash flows from operations in 2013 and 2012. The Corporation had working capital of \$1,931,604 at September 30, 2014 compared to \$541,549 at December 31, 2013, representing a \$1,390,055 increase. Management believes current working capital is sufficient to fund the Corporation’s budgeted expenditures until mid-to-late 2016. The Corporation holds a 25% interest in the Donkin joint venture and Glencore, the holder of the 75% majority interest in the joint venture, is in the process of selling its interest. This impacts the ability of the Corporation to raise capital or to advance the project to development until Glencore completes a sale. There is no certainty the sales process will be completed in a timeframe that will enable the Corporation to raise funds as required in the future to advance the project to development. The ability of the Corporation to continue as a going concern, realize its assets and discharge its liabilities in the normal course of business and continue with, or expand upon its evaluation and development of the Donkin project is contingent upon obtaining equity financing or securing strategic alliances.

These consolidated financial statements do not reflect the adjustments that would be necessary if the going concern assumption were not appropriate. If the going concern basis was not appropriate, then adjustments would be necessary to the carrying values of the assets, the reported revenues and expenses, and the statement of financial position classifications used.
